For all warranty work.

## CLEANING

F.H.U. DARPOL is built upon the merger KIRBY ROTEX Inc., the American representative of cleaning machines, and companies BŁYSK. For many years, both companies have been engaged in a wide range of works at the premises of private and public buildings.

Services run by using professional machines (dishwashers COMAC, Gansow; scrubber NUMATIC, TRUVOX; hardware manual FILMOP, VERMOP) and chemicals (HENKEL, BUZIL). Fluids we use are environmentally friendly and have the necessary approvals, permitting their use in food processing plants and Hospitality.

We also do window cleaning of external and internal cleaning of upholstered furniture and hard (30cm mattress depths are directly butting in, washed and dried - the fight against mite), disinfection of sanitary facilities, water supply dispensers, soap, fragrances, towels, toilet paper, bags garbage, etc.

Professional services: cleaning of hard floors, marble floors crystallization, washing carpet shampoo and extraction method, application of protective polymer layers, polishing and complement defects in polymers.

In the interest of safety and tranquility of our contractor, we have liability insurance on your business.

To ensure the highest quality of services, persons performing commissioned works are regularly inspected and be introduced to the novelties in the market order (chemical and mechanical equipment.)

## YEAR-ROUND CARE FOR GRAVES

Taking care of special places, respect and memory of people who have gone, it is all important. We offer professional, with continued assistance in maintaining the cleanliness of places of burial.

We offer: cleaning of monuments, slabs and their maintenance; subtitle refresh and complement defects (construction); organizing environment, frame rate, planting crops, lighting candles, placing flowers.

## DESIGN, CONSTRUCTION OF GARDENS - LANDSCAPED AREAS

We are a thriving, we perform gardening services. We design, arrangement and maintenance of gardens and green spaces. Our years of experience and knowledge gives us the opportunity to create gardens with unique character and atmosphere. Each implementation is a reflection of individual style of the garden owner. We look at the garden long term, we do our work so that the garden was interesting all year round and attractive for years. It is therefore important elements in any garden, large and small architectural details are eye-catching, fit the unique character and charm of the place where they are located. Introduce a note of mystery to the garden show on the individual tastes of the garden owner. These are: the place of rest (benches, gazebos, walkways, platforms), boulders, sculptures, fountains, springs, waterfalls, etc.

Projects

Careful analysis of tastes and preferences of each client project is implemented in the garden. The first phase of work are sketches that are modified together. Only after fixing all the details we can start doing the final draft, which contains vegetable planting project along with a detailed cost estimate.

The project could include an automatic irrigation system design and installation of lighting. We also realization of the projects received from clients. In carrying out the plants use the highest quality from the best Polish nurseries.

Skills, are a guarantee of quality services.
